Psychology PhD programme is intended for

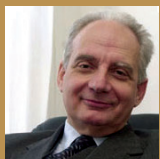

- students who wish to pursue a research career in Psychology;
- students interested in carrying out scholarly activities, are able to engage in original, independent and critical thinking and develop research-based theory in their specialised fields.

Students who are awarded Ph.D. degrees are expected to develop teaching competences as well.

Our Doctoral School

- provides an academic degree,
- promotes acquisition of advanced skills and abilities for academic research,
- offers academic (teaching) practice.
