

# PSYCHOLOGY BA

EÖTVÖS LORÁND UNIVERSITY  
Faculty of Education and Psychology  
Institute of Psychology

## The Institute of Psychology of the Faculty of Education and Psychology, Eötvös Loránd University

is situated in the heart of Budapest and is one of the main institutions of Hungarian psychological education and research. The number of our lecturers exceeds 100 and we maintain good professional relations with more than 50 organizations which offer internship possibilities to our students. We lay special emphasis on research and development projects, where international cooperation and the collaboration of our students are both priorities.

### STUDY PERIOD

6 semester

ADMISSION OFFICE [admission@ppk.elte.hu](mailto:admission@ppk.elte.hu)

FOR THE COMPLETE SET OF PROGRAMME REQUIREMENTS VISIT WEBSITE <http://www.ppk.elte.hu/en>

Our **Psychology MA programme** welcomes the graduate students of the BA qualification, but of course they can participate in any other master qualifications that welcome them in the Bologna-system within Europe and/or in the world.

There is a great need for these professionals in the following fields: organisational, educational and pedagogical institutes, therapeutic and rehabilitation institutions, health-promoting and – disease-preventive workplaces.

## AIM OF THE QUALIFICATION

The basic qualification of ELTE is to train professionals

... who are perfect in theoretical foundations and basic methods of psychology,

... who have an insight into the applied branches of psychology,

... who possess skills and techniques that can be used in order to measure, explore and develop individuals, groups or organisations through behaviour measurement or other experiments.

It is also aimed to provide modern, both theoretical and practical knowledge and a true sense vocation that supports further learning in any psychology MA.

## BASIC SCIENCE STUDIES

### COGNITIVE AND AFFECTIVE PSYCHOLOGY

perception, attention, learning, memory, thinking, consciousness, motivation and emotion, etc.

### PERSONALITY PSYCHOLOGY

theories of personality, development and functioning of the self, and control- and coping processes, etc.

### SOCIAL PSYCHOLOGY

social cognition, perceiving individuals and groups, belief systems, attitude dynamics, etc.

### DEVELOPMENTAL PSYCHOLOGY

human motor, language and cognitive development, socialisation across the life span, etc.

## BORDERING SCIENCES AND RESEARCH METHODOLOGY

physiology and anatomy, economics and behavioral sciences, culture and society, statistics, evolutionary psychology, behavioral genetics, etc.

## MAIN FIELDS OF APPLICATION IN PSYCHOLOGY

clinical psychology, work- and organisational psychology, health psychology, counselling psychology, educational psychology, ethical and legal issues, psychological skill training

We also guarantee an integrated knowledge about education, communication, socialisation, learning and human development that matches the background of the **pedagogical** and **andragogical** master programmes.
