MEET OUR STUDENTS

“I have chosen ELTE because of the outstanding educational programs. After speaking with students and professors from several universities, I was confident of my decision that ELTE is the best choice for me. With many excellent teachers and professors it was no doubt that the Faculty of Education and Psychology would provide me the necessary theoretical and practical skills needed to excel in the professional world.”

Tina Os (Psychology BA, Norway)

“The atmosphere at the university is great and I have really learned a lot from professors and classmates. The infrastructure is great with beautiful buildings, up-to-date equipments and facilities for studies, and computers in the labs have all the software packages we need.”

Mohammad Asif Karim (Computer Science MSc, India)

“The marvelous scenery outside our campus brightens up my mood and makes my studies here a pleasant experience. What is more, the most delightful thing every day is to read in our magnificent central library. Studying at ELTE is both enjoyable and fruitful.”

Cui Hao (Mathematics MSc, China)

“ELTE is more than a university or an institution for me since it helped me to find my way when I came to Budapest due to my marriage. After leaving everything related to my life in Turkey, I acknowledged Budapest as my second home.”

Reyhan Yildiz (Doctoral School of Linguistics, Turkey)

www.elte.hu/en/meet-our-students
EXCELLENCE IN EDUCATION AND SCIENCE

• Rated as the **best university of Hungary** in terms of lecturer and student excellence
• The most popular Hungarian university, with **27,000 students**
• At the **top of Hungarian university rankings**
• **The highest ranking Hungarian university according to the Academic Ranking of World Universities and the Center for World University Rankings** in 2017
• World ranking in different scientific fields as per QS World University Rankings 2017
  - Arts and Humanities: Archeology 101–150, Linguistics 151–200, English Language and Literature 251–300, Linguistics 151–200, Modern Languages 251–300
  - Computer Science & Information Systems: 451–500
  - Life Sciences: Agriculture & Forestry 151–200, Biological Sciences 401–450
  - Natural Sciences: Chemistry 401–450, Mathematics 251–300, Physics & Astronomy 401–450

• World ranking in different scientific fields as per QS World University Rankings 2018
  - Arts and Humanities: Archeology 151–200, Linguistics 151–200, Philosophy 151–200
  - Life Sciences: Agriculture & Forestry 201–250
  - Natural Sciences: Mathematics 251–300, Physics & Astronomy 301–350
  - Social Sciences & Management: 451–500
• Offering the **best courses** in Hungary according to 86% of students, regarding their own fields
• The **largest scientific establishment in Hungary**
• Home university to **76 lecturers** who are members of the Hungarian Academy of Sciences
  (20% of all Hungarian academicians)
• 75% of teaching staff hold a PhD or higher academic degree
• Alma mater of **5 Nobel laureates**
• 13 researchers possessing over 10,000 citations each
• **24 research groups** with the Hungarian Academy of Sciences
• **3 research groups** supported by the **European Research Council’s Starting Grant** (ERC-STG)
• 41,336 international publications since 1950
• A broad range of research and study fields: natural sciences, mathematics and informatics, humanities, social sciences, psychology, educational sciences
• The widest range of higher education in Hungary at 8 faculties, including
  - **38 bachelor degree programs**, **96 master’s degree programs**
  - **16 doctoral schools** with **118 doctoral programs**
  - 13,162 courses
• **64 languages** taught at the Faculty of Humanities
• **Over 60 degree programs in foreign languages** offered to international students
• Over **3 million documents** in our libraries
ELTE, THE INTERNATIONAL UNIVERSITY

• **Students from** more than 70 different countries

• **Partnerships with** 450 higher education establishments worldwide

• **More than 700 Erasmus+ students studying at ELTE in 2016/2017**

• Ranked among the top 60 best receiver universities by Erasmus+ students

• Active membership in 9 prestigious international university organizations

• **Intensive workshops, conferences and lecture series each year** introducing leading researchers in various fields to ELTE citizens

• Successful **joint programs** for top talents offering certification in collaboration with the best European universities, such as
  - EIT Digital Master’s Program providing studies in Budapest in the second year, choosing the first year from 7 different universities in 5 countries
  - TEMA+ European territories: Heritage and Development: an Erasmus Mundus joint master’s program offering two or more degrees from different European countries

• Numerous courses in the framework of **summer universities**, such as
  - ELTE Summer University of Hungarian Language and Culture
  - ELTE Budapest Summer University
  - ELTE Summer School in Mathematics

• A wide range of mobility opportunities (e.g. Erasmus+, CEEPUS)

www.elte.hu/en/summer-university
www.elte.hu/en/outgoing-mobility
SCHOLARSHIPS IN HUNGARY: STIPENDIUM HUNGARICUM

Stipendium Hungaricum is a scholarship program for foreign students, launched by the Hungarian Government in 2013. The program aims to promote cultural understanding, economic and cultural relations between Hungary and other countries.

Provisions covered by the scholarship:

- **Exemption from tuition fees**
- **Monthly stipend (contribution to living expenses):**
  - Non-degree, bachelor’s and master’s programs: HUF 40,460 per month (~EUR 130)
  - Doctoral programs: HUF 140,000 per month (~EUR 450; first and second years), HUF 180,000 per month (~EUR 580; third and fourth years)
- **Dormitory accommodation** or additional contribution to accommodation costs: HUF 40,000 per month (~EUR 130)
- **Health-care services during studies**

www.elte.hu/en/stipendium-hungaricum
www.stipendiumhungaricum.hu
THE COUNTRY: HUNGARY

Official name: Hungary
State form: Republic
Memberships: EU, NATO, Schengen Zone, UNESCO
Area: 93,030 km²
Population: 9,897,541
Official language: Hungarian
Country calling code: +36
Internet domain: .hu
Time zone: CET (UTC +1)
Currency: Forint (HUF)
Exchange rate: 1 EUR = 311 HUF (valid in March 2018)
Weather: continental climate, 4 seasons
Summer: 23 to 28 °C
Winter: -3 to -7 °C

BUDAPEST, A VIBRANT CAPITAL CITY

• The capital of Hungary (population: 1.7 million)
• All of Europe within easy reach by plane from the international airport
• Located in the centre of Hungary
• The most popular tourist destination in Hungary
• A mix of tradition, culture and entertainment for students
• Considerably lower cost of living than in Western Europe (~EUR 400 per month)
• Safe and student-friendly
• Great public transport with generous student discounts
• Plenty of green areas in the city and beautiful countryside nearby

LIVING COSTS IN BUDAPEST

Budapest is a popular destination for students also because the city offers affordable living costs.

Cost of living in Budapest

• Accommodation, renting an apartment: HUF 70,000-120,000 = ~EUR 230-390
• Single ticket (bus, tram): HUF 350 = ~EUR 1.1
• Monthly student season ticket for public transport: HUF 3,450 = ~EUR 11

Shopping in Budapest

• Liter of milk: HUF 280 = ~EUR 0.9
• Liter of mineral water: HUF 100-150 = ~EUR 0.3-0.5
• Loaf of bread: HUF 200 = ~EUR 0.7

Night-life in Budapest

• Cinema ticket: HUF 900-1500 = ~EUR 3-5
A WIDE RANGE OF UNIVERSITY SERVICES FOR INTERNATIONAL STUDENTS

Housing
We consider it our responsibility to offer incoming students a wide variety of accommodation, so that they can select what suits them best.

www.elte.hu/en/housing

Other services

• Orientation Week
• ESN ELTE Student mentor system
• ESN ELTE Cultural and social programs with student organization
• University library network
• University sports
• Hungarian language courses
• English language courses
• Life management counseling
• Career counseling
• Disability Center
• Quaestura Office of Student Services (student ID, health insurance)
• Visa support
• ELTE “Eötvös” Art Ensemble

MORE THAN 60 DEGREE PROGRAMS FOR INTERNATIONAL STUDENTS

www.elte.hu/en/find-degree-program

* The university and its programs are accredited by the Hungarian Accreditation Committee
* Course credits are transferable across all countries in the European Union
* No Hungarian is required

Funding:
Available : www.elte.hu/en/funding
Tuition fees per semester: EUR 1000–4900*
* Tuition fees vary according to faculty and program

Application deadline:
From April until July*
* Application deadlines vary according to faculty and program

Admission process:
www.elte.hu/en/how-to-apply

Academic year:
Semester 1 (Autumn)
Registration period: early September
Study period: early September – mid-December
Examination period: mid-December – end of January/early February

Semester 2 (Spring)
Registration period: early February
Study period: early February – mid-May
Examination period: mid-May – early July

Faculty of Humanities  
School of English and American Studies  

Title: Foundation Course in English  
Degree: Declaration of Completion (non-degree program)  
Type: Preparatory program  
Work schedule: Full-time program  
Level: Pre-university program  
Duration: 2 semesters  
Language: English  
ECTS credits: 47  

The English Foundation Course is designed for students who wish to study at ELTE or another European university, but do not yet have the necessary level of language competence and study skills to start a bachelor’s program. With a minimum of 800 contact hours guaranteed, the course can bring you up to speed in as little as two semesters.

The aim of the program is to provide a gateway for students to European education, by equipping them with the basic linguistic, cultural and study skills necessary for beginning BA level studies at a European university.

Goals
Students of the program should be able to pass the CEFR B2-level language examination offered by the university at the end of the academic year. If they pass, they will be admitted to the English and American Studies BA program at ELTE or might be admitted into another institution of higher education of their choice in Hungary or the European Union.

Students should achieve the following scores on an internationally acknowledged (external) language exam:

- TOEFL PBT (Paper-based test): 453 – 497
- TOEFL iBT (Internet-based test): 46 – 59
- IELTS: 5.5

Program Leader
Dr. János KENYERES, Director of the School of English and American Studies

INTENSIVE HUNGARIAN FOUNDATION COURSE

Faculty of Humanities
Institute of Hungarian Linguistics and Finno-Ugric Studies
Department of Hungarian as a Foreign Language

Degree: Declaration of Completion (non-degree program)
Type: Preparatory program
Work schedule: Full-time program
Level: Preparatory
Duration: 2 semesters
Language: English
ECTS credits: 47

1st semester – basic (A1-A2) level, 300 classes

The aim of the course is to provide students with the knowledge and skills that will allow them to successfully manage communicational situations arising in the target language environment and will enable them to comprehend factual text containing the basic structures of the language, in both reading and writing.

2nd semester – intermediate (B1-B2) level, 300 classes

In the second semester, students are provided with the full formal system of the Hungarian language. The course subjects concentrate on independent written composition and language use for expressing opinions. The reading program leads from comprehending texts with the help of a dictionary up to the independent processing of texts.

Program Leader
Dr. Katalin SZILI
Associate Professor

Career opportunities
The language skills acquired by the end of the course enable students to continue their studies at universities or to use Hungarian as an intermediary language at work.

Faculty of Informatics

Degree: Declaration of Completion (non-degree program)
Type: Preparatory program
Work schedule: Full-time program
Level: Pre-university
Duration: 2 semesters
Language: English
ECTS credits: 0

This program is recommended to future students who want to establish a firm basis for their further studies in the BSc program of Computer Science. Students who are admitted to the Computer Science BSc but do not reach the minimum level at the entrance examination will also be redirected to our Preliminary Course.

Program Leader
Prof. Dr. Ferenc WEISZ, University Professor

Career opportunities
Successful completion of the Preliminary Course automatically ensures admission to our Faculty's Computer Science BSc program.

PSYCHOLOGY

Faculty of Education and Psychology
Institute of Psychology
Department of Affective Psychology; Department of Clinical Psychology and Addiction; Department of Cognitive Psychology; Department of Developmental and Clinical Child Psychology; Department of Economic and Environmental Psychology; Department of Educational Psychology; Department of Personality and Health Psychology; Department of Psychology of Counselling;
Department of Social Psychology

Degree: Human Behaviour Analyst
Type: Degree program
Work schedule: Full-time program
Level: Bachelor’s
Duration: 6 semesters
Language: English
ECTS credits: 180

The aim of the program is to train perfect professionals in the theoretical foundations and basic methods of psychology and also, to give an insight into the applied branches of its disciplines such as the skills and techniques that can be used in order to measure, explore and develop individuals, groups or organizations through experiments. Students will obtain an integrated knowledge of education, communication, socialization, learning and human development. The program also aims to provide up-to-date knowledge and a true sense of vocation that supports further studies in any psychology MA.

Program Leader
Zsolt DEMETROVICS, PhD, Dean of the Faculty

Leading professor of the program
Anna KENDE, Head of Department, Department of Social Psychology, Associate Professor with Habilitation

Career opportunities
A behaviour-analyst can find its employment in any organization or institution where the following processes take place: education, development, leadership, recruitment, correction or health activities.

Job examples
Behaviour-analyst; HR-assistant; Assistant in psychological research

ENGLISH AND AMERICAN STUDIES

Faculty of Humanities
School of English and American Studies
Department of English Studies, Department of American Studies, Department of English Linguistics, Department of Applied Linguistics, Department of English Language Pedagogy

Degree: Philologist in English and American Studies
Type: Degree program
Work schedule: Full-time program
Level: Bachelor’s
Duration: 6 semesters
Language: English
ECTS credits: 180

The School of English and American Studies offers a bachelor’s program in English and American studies. The program may be completed as a major or a minor program; the latter is only available for students who are in another major program at ELTE. Students taking the program as a major opt for either the English or the American track at the end of the first term. The three-year long program does not provide teaching qualifications.

Program Leader
Dr. János KENYERES, Director of the School of English and American Studies

Leading professor of the program
Prof. Dr. Győző FERENCZ, University Professor

Career opportunities
Those holding a bachelor’s degree in English and American Studies are eligible for admission to the English Studies MA or American Studies MA or similar philological degrees. They will be able to work in different fields, such as journalism, tourism, education in non-state funded schools, government organizations, diplomacy and any other jobs that do not require degree-specific skills.

Job examples
Journalist; English teacher in non-state funded schools; project manager at government organisations; diplomacy

Deadline for applications – September intake | 24 July
Faculty of Humanities
Institute of Hungarian Linguistics and Finno-Ugric Studies

Title: Hungarian
Degree: Expert in Hungarian
Type: Degree program
Work schedule: Full-time program
Level: Bachelor’s
Duration: 6 semesters
Language: English
ECTS credits: 180

The program is meant for students who are intensely interested in Hungarian language and Hungarian literature. As the objective of the studies is to gain specialized knowledge in Hungarian, an A2 level competence in the Hungarian language is required to take up studies. In the first semester of the three-year program, students may accomplish the minor studies of Hungarian as a foreign language. In the course of these studies students may develop their competences in the Hungarian language up to B2 level, understand the basic concepts of Hungarian and European culture, and thus in the following two years they should be able to acquire knowledge about the most important areas and results of Hungarian literary criticism and Hungarian linguistics without any difficulties.

Program Leader
Dr. Tibor GINTLI, University Professor, Head of Department

Career opportunities
A professional understanding not only of the Hungarian language but of Hungarian literature and culture, and several of the cultural factors that define Europe on an international level, will position graduated students to become actors in this quickly developing economic and cultural field.

Job examples
Cultural manager, program manager at embassies or cultural institutes

MUSIC CULTURE

Faculty of Humanities
Music Department

Degree: Music Culture Expert
Type: Degree program
Work schedule: Full-time program
Level: Bachelor’s
Duration: 6 semesters
Language: English
ECTS credits: 180

The aim of this program is to train professional musicians who are able to perform their organizing, managing, creating, and arranging tasks in cultural and artistic institutions of the European region, with the help of their theoretical knowledge and practical skills and with a wide knowledge of European cultural and artistic institutions. During the course, students gain the necessary knowledge about international music life, and with their practical training they will be able to assist the work of any cultural institution, orchestra, opera house or other company with their expertise.

Specializations: choir conducting, church music, music librarian

Program Leader
Gábor BODNÁR, DLA with Habilitation, Head of the Music Department

Career opportunities
Graduates can join the staff (even as managers) of cultural institutions, opera houses, orchestras, music theaters, music libraries, music programs of radios and TVs as well as working as conductors of different choirs or local ensembles.

Job examples
Musical / cultural PR manager or producer; music editor; press officer in cultural fields.

Deadline for applications – September intake 24 July
COMPUTER SCIENCE

Faculty of Informatics

Degree: Computer Scientist
Type: Degree program
Work schedule: Full time program
Level: Bachelor level
Duration: 6 semesters
Language: English
ECTS credits: 180

The objective is to train Computer Scientists with professional knowledge based on a solid theoretical background. They have the skills to take part in software development, in developing information systems, and system management in various areas. Computer Scientists often act as mediators between the customers of information systems and the producers. In this way, the job of a Computer Scientist synthesises the constructive activity of engineers with the general problem-solving attitude of mathematicians while participating in teams of large-scale projects.

The program provides students with a broad education in Computer Science and Software Engineering in combination with specialised work in computer and information processing techniques, programming languages, data structures, information retrieval, operating systems, and compiler design. Students learn the theory as well as the methodologies and techniques used in the development and implementation of computer systems. Most of the practical programming courses are aided by several courses in pure and applied mathematics and theoretical computer science courses throughout the curriculum.

Program Leader
Prof. Dr. Ferenc WEISZ, University Professor

Career opportunities
Jobs are offered by large international computer companies, outstanding Hungarian firms, banks, large enterprises, state institutions, software development companies, research institutes and universities where graduates may be engaged in the preparation of integrated data processing systems, electronic trade transactions and electronic money transfers, solving telecommunication problems (networks, programming mobile phones), performing image recognition, computer-aided design, image processing or preparing multimedia applications.

Job examples
Computer Programmer; Software Engineer; Web Developer

MECHANICAL ENGINEERING

Faculty of Informatics
Savaria Institute of Technology
Savaria University Center
City: Szombathely

Degree: Mechanical Engineer
Type: Degree program
Work schedule: Full-time program
Level: Bachelor’s
Duration: 7 semesters
Language: English
ECTS credits: 210

The aim of the program is to train mechanical engineers with professional knowledge based on a solid theory and an industrial background. They have the skills to take part in designing simple machines or machine elements, use Computer Aided Engineering (CAE) tools, and operate and develop complete production chains in various engineering fields. Mechanical Engineers must have a general problem-solving attitude while the also need to be able to participate in teams working on large-scale projects.

The program provides students with a broad education in Mechanical Engineering, specialized in Production Technologies. The program involves strong fundamental subjects such as Applied Solid- and Fluid Mechanics together with cutting-edge computational tools such as Computer Aided Design (CAD) Computer Aided Engineering (CAE), Finite Element Methods (FEA) or Multibody Dynamics (MD). Students learn the theory as well as the methodologies and techniques applied in the development and implementation of engineering systems and structures. Practical courses are aided by state-of-the-art laboratories.

Program Leader
Dr. Gusztáv FEKETE, Associate Professor

Career opportunities
Jobs are offered by large international companies, outstanding Hungarian firms, enterprises, state institutions, vehicle producing companies, research institutes and universities where graduates may be engaged in the preparation of computer-aided design, structural analysis, quality management issues, production efficiency enhancement or management tasks.

Job examples
Design Engineer; Production engineer; Automatization Engineer; Simulation Engineer; Research Fellow

Deadline for applications – September intake | 30 April
Our program offers rigorous training in the methods and main topics of economics. Building upon the curricula of the best American and European programs and using up-to-date textbooks, our teaching staff has built a carefully crafted and interconnected set of demanding courses with one goal in mind: to turn every student who is prepared to put in the necessary effort into an accomplished young professional who can work as an analyst or as a civil servant for government agencies, who can carry on their studies at master’s level towards becoming a researcher or a professor, or who can use their skills and competence in any other fields from journalism to business or data analysis.

Program Leader
Prof. Dr. Peter PETE, Head of Department

Career opportunities
92% of the first three cohorts of the alumni of our bachelor’s program went on to master’s level studies, 55% of them studying for a degree in Economics at universities accredited outside Hungary, such as New York University (NYU) or The London School of Economics (LSE).

Job examples
Analyst at NERA Economic Consulting (London, UK); Analyst at Frontier Economics (London, UK); analyst at Booking.com (Amsterdam, Netherlands); doctoral candidate at New York University; research assistant at the Economics Research Institute of the Hungarian Academy of Sciences; junior analyst at Budapest Institute for Policy Analysis

INTERNATIONAL RELATIONS

Faculty of Social Sciences
Institute of Political and International Studies
Department of European Studies; Department of Political Science

Degree: International Relations Expert
Type: Degree program
Work schedule: Full-time program
Level: Bachelor’s
Duration: 6 semesters
Language: English
ECTS credits 180

The program offers students the opportunity to develop specialized knowledge in international politics, security studies, EU politics, ethnic conflict, global justice, and human rights. It enables them to understand and analyze complex political and social dynamics that go beyond state borders and cultural boundaries. Following introductory courses in the first year, students have the opportunity to choose from a wide range of elective seminars. The knowledge acquired during the undergraduate courses lays the foundation for the MA in International Relations and other postgraduate qualifications. Applicants will ideally be interested in social sciences and in the links between different countries, peoples and institutions and will be keen to use their language skills. We encourage our students to work independently and to solve tasks in teams. We rely on modern methodologies – including simulations – and we believe that adaptability and self-reflexivity are crucial in today’s fast changing world. Our aim is to give our students skills that they can be readily used wherever they seek employment after graduation.

Program Leader
Dr. Ákos KOPPER, Associate Professor with Habilitation, Head of the Department of European Studies

Leading professors of the program
Dr. Ákos KOPPER, Associate Professor with Habilitation
Dr. Balázs MAJTÉNYI, Associate Professor with Habilitation
Zsolt KÖRTVÉLYESI, Assistant Professor

Career opportunities
Our graduates may seek employment at financial and commercial institutions, in the public sector, in state and municipal administration, and also in the non-profit and non-governmental sector.

Job examples
Foreign Policy Analyst; Lobbyist; Project coordinator (public/private/non-profit); Political Advisor; administrative jobs in the state bureaucracy and at private enterprises

Deadline for applications – September intake 31 May
The aim is to train professionals who have well-founded theoretical knowledge, skills, and abilities, and are qualified to educate 3-6-year-old children with a modern approach in English. One main feature of the program is the provision of top-level theoretical and practical knowledge in the field of early childhood education.

In 2017 our faculty was the Number 1 on the list of pre-school teacher training institutions in Hungary. The Research Lab conducts research and organizes several events for students and practising teachers, such as Workshops for Pre-School Teachers’ or Play Lab for pedagogical practitioners and parents.

Program Leader
Szilvia GOLYÁN, PhD, Assistant Professor

Leading professor of the program
János STEKLÁCS, PhD, University Professor

Career opportunities
The degree entitles the holder to take up positions at pre-schools. Feedback about finding a workplace is very reassuring; our students have a great selection to choose from. The qualification also enables our graduates to continue their studies at MA level.

Job examples
Pre-school teacher

Deadline for applications – September intake  | 31 May
The International Business Economics bachelor’s program has a strong international orientation, yet incorporates a general approach in business economics. The primary goals are to familiarise students with the challenging issues of international economic processes on both macro and micro levels and to acquaint them with the European business environment in order to enable them to perform successfully in a multinational business environment. The main strengths of the program are the strong focus on business law issues and the conscious development of business communication skills. At the end of the programme students analyse real-life problems of international business economics during project work assisted by lecturers.

Program Leader
György ANDOR, PhD, Associate Professor, Deputy Head of Institute of Business Economics, Head of Department of Finance and Accounting

Leading professor of the program
Ákos DOMBI, PhD, Associate Professor

Career opportunities
Choose this program if you intend to work at a multinational organization with fluent command of foreign languages, up-to-date skills in finance, management, business law and international etiquette and protocol.

Job examples
Business analyst; financial analyst; consultant; research analyst; project manager; risk manager
