FOR THE COMPLETE SET OF PROGRAMME REQUIREMENTS VISIT WEBSITE ppk.elte.hu/psychology

AREAS OF COMPETENCIES PROVIDED IN OUR TRAINING

- Clinical and diagnostic work
- Helping and motivating communication
- Health promotion programmes and their evaluation
- Planning clinical and health psychology research
- Critical evaluation of clinical research

With a growing reputation for research and innovation, Eötvös Loránd University (ELTE – the longest continuously serving university of Hungary), offers its diverse student population high quality education and research, building upon the best European traditions.

The mission of ELTE is to preserve and enrich national and universal culture, to cultivate science and to pass on academic knowledge.

ABOUT ELTE

THE AIM OF OUR MA PROGRAMME IS

- to integrate clinical knowledge and current research in order to prepare our students to both practice and research on health and clinical fields,
- to provide opportunity to advance professional practice in both clinical psychology and health psychology,
- to train mental health professionals to work in both primary care settings and traditional clinical psychology settings,
- to prepare students for further studies for doctorate (PhD) degree in clinical and health psychology.

We have students from various cultural backgrounds enriching all discussions with cross-cultural flavor.
